

TOY – ORBEEZ

31st October 2017

Dear Parents,

It has come to our attention that a new toy, Orbeez Water Marbles are quite “The Craze”.

Orbeez are a toy made of super absorbent polymers. They begin as hard little bead, smaller than a piece of rice, but when soaked in water they grow into a ball, just larger than a pea size.

It has come to our attention that children have put these in their water bottles and lunch boxes. We believe this can be hazardous to children, as we would not want any child to choke on such a toy.

We would appreciate if parents please do not allow their child/ren to bring them to school for this reason.
