

Fizzics – Exploring Energy Incursion Thursday 3rd May

16th April 2018

Dear Parents,

On **Thursday 3rd May 2018** grade six students have the opportunity to participate in an interactive, hands on ‘Exploring Energy’ incursion. The day will help us to build the students knowledge to connect with our exciting ‘Essential Energy’ unit of study. Students will discover how energy conversions happen in objects all around us, and learn to identify how this energy can be traced back to the sun.

Students will also gain an understanding of how the Law of Conservation of Energy applies in every situation by identifying how energy enters and leaves a system.

We are looking forward to this exciting day!

The cost of the incursion is \$11.00 and this is part of the Excursion Levy.

Please complete and sign the form below and return it together with payment to your teacher by **Friday 27th April 2018**.
